No. Bill is looking for something that will destroy a salmon stream like a large tailings impoundment.

Subject: Example of a 404 permit to fill a salmon stream?

Hi All,
Can anyone cite an example of a 404 permit that allowed a salmon spawning stream to be filled in Alaska, other than a crossing? The question comes from Bill Riley, who was the ARU manager when Heather, Mark and I started in the program (back when the primary hazard for field work was dinosaurs). He is a consultant for BBNC now.

Phil
